### Staff Summary:

The Miami Gardens Police Department utilizes many resources during the course of routine operations. Some of these resources involve technology for the gathering of information in an effort to detect and solve crimes. One of these outlets is the State of Florida Department of Highway Safety and Motor Vehicles (DHSMV). The DHSMV records all vehicle and driver data for the State of Florida and furnishes this information to law enforcement agencies conducting criminal investigations.

Recently the DHSMV updated the Memorandum of Understanding (MOU) and have requested that agencies using the vehicle and driver data system complete an addendum that will require an audit on an "as needed" basis, not annually. Additionally, a Certified Public Accountant will not be required to complete the internal audit if it is requested, in the alternative; the agency will be permitted to complete any requested audit internally.
